

Jonathan Dukes

Cypress, TX | (281) 908-2042 | JSDukes34@gmail.com | www.jonathandukes.info

EDUCATION

Texas A&M University

Bachelor of Science in Ocean Engineering

College Station, Texas

August 2021 – May 2026

- **GPA:** 3.3
- **Relevant Coursework:** Offshore Structures, Hydromechanics, Vibrations and Control, Applied Numerical Methods
- **Involvement:** Society of Petroleum Engineers (SPE), Society of Naval Architects and Marine Engineers (SNAME)

TECHNICAL SKILLS

Engineering: Offshore oil and gas, pipeline systems, platform documentation, project engineering support, construction support, technical reporting, engineering data management, deliverable tracking, field-to-office coordination

Software: Excel, Power BI, PowerPoint, Outlook, Ignition/SCADA, MATLAB, Python, AutoCAD

PROFESSIONAL EXPERIENCE

Talos Energy

Offshore Operations Engineering Intern

Offshore Gulf of Mexico

June 2026 – Present

- Supporting offshore oil and gas production through exposure to production systems, control room processes, and operational procedures
- Assisting with platform integrity, safety, and environmental checks across the hull, ballast, and production support systems
- Conducting routine field measurements and sample testing to support operations, chemical management, and equipment reliability

White Fleet Operating

Offshore Construction Intern (Hybrid)

The Woodlands, Texas

August 2024 – December 2024

- Supported offshore construction engineers with pipeline mapping, platform documentation and project updates for platform and pipeline removal work
- Reviewed pipeline information, including line size, route details and platform connections, to support decommissioning planning and project execution
- Organized engineering deliverables and supported technical coordination between field and office teams to maintain accurate project information

Arena Energy

Data Analytics Intern

The Woodlands, Texas

June 2024 – July 2024

- Reviewed pipeline routes, platform connections and field data for 30+ offshore oil and gas fields to support operations review, facility engineering and asset visibility
- Built Ignition/SCADA dashboards for five fields to monitor well performance, pipeline pressures and operational anomalies
- Created Power BI field maps, Excel-based summaries and pressure models to support asset-level review, operating visibility and engineering decision-making
- Updated gas lift, tubing and production equipment details to strengthen well data quality and support clearer technical review

Bleyl Engineering

Texas

Conroe,

Civil Engineering Intern

May 2023 – August 2023

- Produced AutoCAD drawings and cost estimates for residential and commercial development projects
- Supported projects valued between \$1 million and \$20 million through submittal, review and approval stages

PROJECTS & LEADERSHIP

Exmar Offshore

Senior Capstone Design Project

College Station, Texas

August 2025 – May 2026

- Designed major systems for a floating offshore nuclear power barge including general arrangements, stability, and ballast
- Evaluated structural loading, materials selection, corrosion resistance and offshore operating constraints

Kappa Sigma Fraternity

- Supported community and charity events, including Wicked Woods and The Big Event

College Station, Texas

August 2021 – May 2025

Boy Scouts of America

Houston, Texas

Eagle Scout

November 2014 – August 2020

- Held various leadership positions such as Patrol Leader and Crew Leader for Philmont Scout Ranch High Adventure
